NEW DEBATE GAG RULE ON SENATE BOOKS

**Compromise Anti-Filibuster
Provision Goes Through
On 63-23 Defeat For
Administration**

BLOCKS CIVIL RIGHTS

Washington, March 18—(AP)—The crushing weight of a Republican-Dixie steamroller left a new debate-gag rule stamped on the senate's books today—despite furious objections by Truman Democrats that it would block action on civil rights.

After voting 63 to 23 last night to adopt the compromise rule—intended to stop most future filibusters—the senate put aside for the time being the whole question of President Truman's civil rights program. That program was at the core of the long rules-change fight. Republicans said the new bill would permit action on civil rights.

Ahead was an imposing array of vital administration legislation dealing with the European Recovery Program, reciprocal trade agreements and housing.

All are ready for senate action, with rent controls tabbed for debate Monday after a routine business session today.

Behind the senate was a bitter battle of 16 working days that ended shortly before midnight last night when the GOP-southern Democrat coalition forced adoption of a debate-limiting rule assailed as ineffective by Democratic leaders.

Thirty-four Republicans joined with 29 Democrats—all but 10 of them from Dixie—to approve a rule under which the "yes" votes of 64 senators can gag debate any time except on a future rules change.

Fifteen Democrats and eight Republicans opposed the new rule to the last.

Its adoption means that two-thirds of all of the senate's 96 elected members will have to be in the chamber and vote for a gag before it can become effective.

Senator Lucas of Illinois, the Democratic leader, predicted there never will be any anti-poll tax, anti-lynching or anti-job discrimination bills passed now, because talk won't be stopped under the new rule.

Senator Wherry of Nebraska, the GOP leader, said the compromise, which he authored, opens the way as never before to civil rights action.

Italy To Adhere To Defense Alliance

Rome, March 18—(AP)—The chamber of deputies, beating down a dogged filibuster, voted tonight to authorize the government to negotiate Italy's adherence to the North Atlantic defense alliance.

The vote on the resolution of confidence in the government's foreign policy was 342 to 170.

The pro-Communist Socialist leader, Pietro Nenni, said Italian adherence to the pact would be an "invitation for the invasion of our country."

The filibuster ran three days before the matter came to a vote. Outside the police-ringed chamber, sporadic red-inspired violence broke out in several cities.

The disorders—in Rome, Milan, Genoa and other areas—were quickly quelled by police.

No new disturbances were reported today.

Sheffield War Casualty Will Arrive Home On Wednesday

Sheffield, Mar. 18—(AP)—Mrs. Girdon McKillip, Church street, has been advised by the Columbus, O., distribution center that the body of her son, Sgt. Girdon McKillip, Jr., will arrive home next Wednesday morning for services and interment.

Removal will be made to the Borden Funeral Home, where friends may pay their respects and from where services will be held at 2 p. m. Thursday. Rev. E. D. Hulse and Rev. Pearson will officiate and interment will follow in the local cemetery. Military rites will be conducted by the Michael and Nicholas Peroski Post, No. 8755, Veterans of Foreign Wars.

Sgt. McKillip was born September 30, 1911, in Sheffield and was graduated from Sheffield High School with the Class of 1929. He attended the Bliss Electrical

school, Washington, D. C., and the Curtiss-Wright School, Valley Stream, Long Island, N. Y.

Prior to his enlistment in service on October 4, 1942, he was employed by the Pennsylvania Bottle Company. He received his preliminary training at Middletown, and later was trained at Selfridge Field, Mich., and Wendover Field, Utah.

Sgt. McKillip went overseas in July, 1943, and served with the 7th Airborne Squadron on Guadalcanal, New Guinea, the East Indies and Australia, where he died Jan. 19, 1945 from malaria, and was buried in the U. S. Armed Forces Cemetery at Ipswich, Australia.

Sgt. McKillip was a member of the First Methodist church, and is survived by his mother, Mrs. Girdon McKillip, his wife, Ethna Lindgren McKillip, died Dec. 21, 1944.

Success Of Duff Program In Legislature May Result In Adjournment On April 15th

Harrisburg, March 18—(AP)—Gov. James H. Duff is elated today on the success of his program in the 1949 legislature.

The achievement is so nearly complete since the session convened Jan. 4 that the Republican leadership in both house and senate confidently predict an April adjournment. An April 15 adjournment would be the earliest in 20 years.

Virtual enactment of a \$438,000,000 tax program is the most spectacular of the administration's accomplishments. It survived opposition by the big Democratic bloc in the house and an undercover split among Republican senators.

The two most controversial portions of the tax program—increasing the gasoline levy from four to five cents and renewing the soft drinks tax—are now on Duff's desk for signature.

So are bills to continue levies on liquor, cigarettes and corporations. The only holdup is a senate change in the beer tax, increasing the breakage allowance to breweries. The house, however, is not expected to agree to this \$2,360,000 cut in state revenue.

The bond-financed authority plan for \$147,000,000 in long-range construction of hospitals, colleges and stream clearance equipment and \$40,000,000 for express highways and bridges also has passed both chambers.

This major adjunct to Duff's tax program needs only house concurrence in a senate-proposed change to establish a ceiling of \$175,000,000 in the general construction bond issue.

A 25 per cent across-the-board boost in workers' benefits heads toward almost certain senate approval after narrowly weathering labor-backed Democratic efforts in the house to further liberalize payments.

The lower chamber passed by a 196-0 vote yesterday bills to increase the maximum weekly payments for both workmen's compensation and jobless benefits from \$20 to \$25. Legislation for a similar boost in occupational disease benefits is expected.

In both measures, the increases (Turn to Page Ten)

Washington, March 18—(AP)—Judging from the way the rent control bill is shaping up you probably can count on official protection for a while longer but you'll have to pay more rent.

One thing seems certain: The legislation won't extend controls 24 months beyond March 31 as President Truman requested, or give him the control he wanted.

The house measure already approved extends controls 15 months, authorizes rent increases of 15 per cent above the 1947 level in certain cases, and allows states, counties or cities to decontrol rents at any time.

Yesterday the senate banking committee approved a bill that in effect extends control 15 months, permits boosting rents a maximum of 15 per cent over the June 30, 1947 level, and lets states take over controls when they have adequate laws.

In both measures, the increases (Turn to Page Ten)

Key West, Fla., March 18—(AP)—President Truman turned the other cheek today to a rebellious congress, but declared that Dixiecrat opponents are not good Democrats.

The chief executive, in a news conference on the shaded lawn of his winter White House, clung steadfastly to the hope of enactment of the major part of his "fair deal" program through what he termed a three-party congress.

The three parties, he said, are the Democrats, the Republicans and the Dixiecrats.

"What happened to the Progressive party?" he was asked.

Ask Bob LaFollette, the president-elect, he buried it.

"Do you mean that Dixiecrats are not good Democrats," the president was pressed.

Of course they are not good Democrats, he came back.

Mr. Truman said he has as yet made no plans to stump the country to build up fire under opponents of his proposals.

He had nothing to add, he said, to his Jefferson-Jackson Day dinner threat to take a train swing around the country.

Mr. Truman said the North Atlantic Pact has his entire approval—and that he has approved the speech on it that Secretary of State Acheson is making tonight.

While he declared that of course, Dixiecrats are not good Democrats, Mr. Truman talked patiently and kindly of the rebellious congress which has dealt him a series of setbacks.

He said he still had hope that members of congress will function all right.

After all, he said, it is a new congress, which has been in session little more than a month since organization was completed.

He said he thought he ought to give congress a chance to act.

Mr. Truman said he will review the legislative situation with Democrat leaders at the White House Monday and call in his cabinet for a talk Monday afternoon.

But otherwise, the president spoke like a man who wasn't mad at anybody.

The president, who said he now tips the scales at 176 pounds, bedside weight, appeared for his conference in light blue cotton trousers and a blue sports shirt, open at the neck.

It took place on the lawn of the winter White House. The president said he has been enjoying his vacation, that he hates to leave tomorrow, and that he has been looking around for an excuse to stay on another week.

Even the tabling by the senate armed services committee of his nomination of Mon C. Wallgren for chairman of the National Security Resources Board failed to draw fire.

This rebuff to the former Washington governor and his warm personal friend provoked only a no comment.

HIGHWAY FATALITY

O'DWYER TO TESTIFY IN WIRE TAPPING

**New York Mayor Slated To
Be Heard Before Night-
fall By The Grand
Jury**

ELECTION IS INVOLVED

New York, March 18—(AP)—Mayor William O'Dwyer's views on New York City's strange wire-tapping episode may reach the ears of a grand jury before night-fall.

O'Dwyer has charged that at least 75 top city officials including himself were the targets of stealthy eavesdroppers, acting outside the law.

He is going before the grand jury to try to offer proof.

Details of the case are expected to be reviewed tomorrow at a meeting here of New York City's Democratic caucusmen.

The session, described by Rep. Emanuel Celler, (D-N. Y.) as "all-important," raised the possibility of a congressional inquiry.

"We are going for the purpose of listening, of getting information," Celler said yesterday in Washington. "Then we shall study what facts we have gathered to determine if anything should be done."

New York has a city election coming up in the fall. O'Dwyer probably will seek reelection, although he has not said so. In his opinion, a politician is entitled to the same privacy as anyone else when he is on the telephone.

So he wants to know if any one planned to tap his wires and why. He has assailed multi-millionaire Cleveland J. Ryan in the case.

Ryan has denied any connection with the alleged plot that O'Dwyer has outlined. As a self-styled reformer, Ryan admits he is out to prevent O'Dwyer's re-election.

But, he says, he does not have to tap telephone wires to get his information. Informants "right in the middle of the O'Dwyer camp," he says, are risking "their lives and the safety of their families" to give him proof that O'Dwyer is not a fit mayor.

O'Dwyer said police are investigating a report that blackmailers also have made a non-political go thing out of the wiretapping game.

Wiretapping devices reportedly were installed by blackmail gangs where shady business deals or illicit romances were going on. The victims were said to have paid off \$1,000,000 a year to keep the blackmailers quiet.

There have been suggestion that the alleged wiretapping plot may have stretched far from New York. Ryan has announced that he hopes to drive "corrupt politicians" out of office elsewhere. City Hall sources suggested that wiretapping plots may have been planned for Detroit and Chicago.

**Story of Uranium
Theft Is Confusing**

Mexico City, March 18—(AP)—Mystery and confusing contradiction marked the story today of the seizure of a small cylinder containing a uranium substance, possibly stolen from an atomic laboratory in the United States.

The Mexican secret police said the capsule contained pure uranium 235, the stuff from which atom bombs are made. They expressed belief it had been stolen from America which—so far as is known here—is the sole producer of U-235.

U.S. Attorney General Francisco Gonzalez De La Vega said later, however, the cylinder contained only an ingot of refined uranium having no explosive power, and not enough of the material to be of much use to anybody.

The Atomic Commission in Washington said none of its plants or contractors had reported the loss of any material essential to the making of an atom bomb.

Mexican secret police said the investigation now is in the hands of FBI agents attached to the U. S. embassy here.

Visit Of Grand Exalted Ruler Hall Is Red Letter Event For Elks Of Warren and District

Warren Lodge No. 223, B. P. O. Elks last evening played host to one of the largest fraternal gatherings in this community in over ten years, the occasion being the reception and banquet to Grand Exalted Ruler George I. Hall, Lynbrook, N. Y., who was accompanied by a number of other grand lodge officers along with a score of state association and district officials.

Several hundred Elks came from cities throughout western Pennsylvania and southwestern New York to participate in the events of the afternoon and evening, highlighted by a stirring address by Mr. Hall at a banquet held in the State Armory at seven o'clock attended by approximately 500 members of the order.

Mr. Hall's address was without doubt one of the greatest talks on "American Democracy" every heard in Warren. In it he lauded 1,000,000 members of the Order of Elks, who have banded together in a determined campaign to preserve the American way of life. Earlier in the day he had broadcast from the WNAE studio a talk to schools of the borough and county. Last evening's thrilling address was broadcast over WNAE-FM.

Following the luncheon at the Carver Hotel at 1:30 attended by officers of Warren Lodge, and the executive committee in charge of arrangements for the reception, Mr. Hall and his party, which included Grand Secretary J. Edgar Masters and Assistant Secretary F. J. Schrader, as well as a number of grand lodge and state officials, spent the afternoon until five o'clock in a round of informal visits and conferences. In the meantime hundreds of visiting Elks were being registered at the newly-decorated club house in Hickory street.

A reception for the grand exalted ruler and other notable guests was held at the club from six until seven o'clock, when the crowd adjourned to the State Armory for the dinner and program. The in-

Wet Snow Falling In Many Parts Of The State Today

By The Associated Press
Snow so wet and thick it was hard to see where you were going fell on Pennsylvania today.

It was two days before spring, but that was a hard fact to believe. The slushy white stuff was general from Altoona east with the heaviest fall reported in the central area bounded by Harrisburg, Sunbury and Williamsport.

The weatherman buttoned up when asked if there is much more wintry weather in store for Pennsylvanians. But he did say it'll be cold for the rest of this week and into the beginning of next.

Winter had a late start and there's a good chance the same will apply to spring in marked contrast to last year when the last measurable snowfall in Philadelphia, for example, was the two-tenths of an inch that fell March 7.

There was no hint of how deep the snow would be in Pennsylvania, but the weatherman figured it at about three inches in most rural areas.

Roads were not too slippery but the wet snow was sticking to windshields making driving conditions hazardous.

There's more to come ahead. Following the end of the snowfall, high winds are expected to lash the state, freezing the slushy snow and icing highways. Below freezing temperatures are forecast tonight and tomorrow.

Spring, by the way, has its official start at 5:49 p. m., EST, on Sunday, March 20.

The western Pennsylvania snow-fall glazed streets and highways, delaying commuters and making driving hazardous.

Tonight will be cloudy and windy, with occasional snow flurries and a low of 20 degrees, the weather bureau said. Tomorrow will be cloudy and continued cold.

PACT PROPOSES FIRST TIME IN PEACE ALLIANCE BETWEEN U. S. AND EUROPEAN NATIONS

Washington, March 18—(AP)—The North Atlantic Treaty, it was officially disclosed today, would pledge the United States and Allied Nations to resist automatically an "armed attack" against any one of them—possibly by "the use of armed force."

Each nation would decide for itself whether military force was "necessary." The pact thus recognizes that in this country only congress can declare war.

The unprecedented treaty, proposing for the first time in peace to bind America in an alliance with European nations, was made public at 11 a. m. by the United States and the seven other countries which intend to sign it here about April 4.

This official disclosure of the terms is expected to arouse Russia to new heights in propaganda attacks against the alliance. The Soviets already have denounced it as an aggressive move against them, despite the repeated assertions of western leaders that its aim is strictly defensive.

The treaty, 1,040 words and 14 articles long, provides for creation of a council of the member nations, and of a defense committee to strengthen and coordinate the defenses of the whole huge region of North America, western Europe and the North Atlantic.

An attack against the territory, occupation forces, ships, planes or lands of any of the allies anywhere in this vast area would be the signal for all the powers to spring into action, according to the treaty's provision.

The key provision of the pact is article five, which says:

"The parties agree that an armed attack against one or more of them in Europe or North America shall be considered an attack against them all; and consequently they agree that, if such an armed attack occurs, each of them, in exercise of the right of individual or collective self-defense, recognized by article 51 of the charter of the United Nations, will assist the party or parties so attacked by taking forthwith, individually and in concert with the other parties, such action as it deems necessary, including the use of armed force, to restore and maintain the security of the North Atlantic area."

"Any such armed attack and all measures taken as a result thereof shall immediately be reported to the U. N. Security Council. Such measures shall be terminated when the Security Council has taken the measures necessary to restore and maintain international peace and security."

That is the long-debated section which, although stopping short of an automatic pledge to go to war, is designed to put Russia on notice that an attack on any of the western powers would instantly be met by all of them.

The "parties" referred to in the pact are the nations signing it. These will definitely include the United States, Canada, Norway, Britain, France, Belgium, the Netherlands and Luxembourg. In addition Iceland, Portugal, Denmark and Italy have been invited and are expected to sign.

After next month's signing the treaty will come into actual force when a majority of the governments have ratified it. But the majority must include America, Britain, Canada, France, Belgium, the Netherlands and Luxembourg. Before the United States can ratify, the senate must approve the pact by a two-thirds majority.

Even while the senate is debating the treaty, President Truman is expected to send to congress a billion dollar program to rearm the treaty nations of western Europe and thus give added meaning to the all-important article five.

The text is full of references to the United Nations. In fact, the treaty opens with a preamble in which the nations "reaffirm their faith in the purposes and principles of the charter of the United Nations and their desire to live in peace with all peoples and governments."

The father paid a fine of \$5 and costs and the girl agreed to go back to school. About a year ago the brother was brought before Alderman Love for truancy.

Bill Boosting Hunting Fees Is Approved

Harrisburg—(AP)—A proposal to boost hunting licenses from \$2 to \$3.15 had the approval of a house committee today over the protest of the State Game Commission.

The committee held out for a boost to \$3.50 and wanted that anything less than \$3.15 was the job.

Ross L. Lott, committee president, said "it was impossible to show any improvements and to create any additional income among the million hunters of the Keystone state with only a \$3.15 fee."

Of the fee proposed in the house bill, fifteen cents will go to the licensing agency, leaving \$3 for game commission which will \$1.25 earmarked for the food, stocking and conservation.

The measure also would increase non-resident hunting licenses from \$15 to \$25 and restore trapping privileges now allowed out-of-state hunters.

Letter explained in condemning the house bill that money saved during the war, now being exhausted, is being used to finance the conservation and \$3 program with a \$2 license fee.

He said that even a \$2.05 fee would "only continue the present program and provide for very little improvement."

The game committee also approved another bill providing the method through which deer hunters may set aside an antlerless deer season under the game commission.

At least 51 per cent of resident hunters would be required to vote the commission's antlerless season under the new method. But farmers, who hunt without license would be included in the veto count. In addition, only licenses issued in particular county would be included.

The present law on cancelling an antlerless deer season requires 50 per cent of resident hunters in any county must sign the petitions.

The house bill committee announced approval of a bill to close streams to all trout fishing for a month prior to opening of the trout season each year on April 15.

Recruiting Service Has a Waiting List

"Man-Bites-Dog" is certainly a newsworthy item. But consider this one: "Recruiting Service Has Waiting List". Unheard of, possibly?

It's all tied in with the new standards of enlistment in the regular Army and Air Force. Until recently, enlistments in both services were "wide open." Today, however, the story is different—the Army and Air Force actually have waiting lists of applicants for enlistment.

"Selective recruiting" is the name of this new idea. Volunteer enlistments in the past few months were in such numbers that now, it's like obtaining a new car—there's a wait involved. The volume of volunteer enlistments has also resulted in a backlog of inductions under the selective service act.

Qualified applicants are still urged to apply for enlistment. Airman 1/c Donald F. Miller, commanding officer in Warren, said today, "Those accepted are placed on a priority list in order of their qualifications and are notified as vacancies occur."

The period of waiting presently averages 30 to 45 days, Airman Miller pointed out.

Many choice assignments still exist, Airman Miller emphasized, and urged that interested individuals make early application for enlistment so as to get on the waiting list as soon as possible.

In the days of the Roman Empire, standard weights and measures were preserved in a temple and served as the world's standards.

FAST TIME SHELVED.
The house shelved the troublesome daylight savings issue for the 1949 session. The state government committee killed a bill by Rep. Francis Worley (R-Adams) calling for a state-wide referendum on the question.

FOUNDATION GROWING
According to the AAA News Review, publication of the American Automobile Association, the Warren County Motor Club is one of the donors to the AAA Foundation for Traffic Safety, having sent the parent organization \$250 toward the growing fund.

PAY SAME TAX
Crawford county taxpayers will pay the same tax rate in 1949. County Commissioners said the levy would be ten mills. They approved a \$353,654 budget, \$130,799 more than last year but said no tax increase would be necessary because of surplus funds remaining from previous years.

ERROR IN PRICE
Scalise Brothers Market ad in last night's issue of the Times-Mirror stated that Simonini Salad Oil would be sold this week end for \$1.39 per gallon. The correct price is \$3.19 per gallon. Our face is red, but the oil is still a bargain at the increased price.

COUNTERFEIT TICKETS
Counterfeit tickets cropped up in Kane in the wake of the shortage of tickets to the Kane High-Sandy Township class B district nine title game at Brookville. The fake tickets were discovered yesterday and the Kane police were attempting to track down the distributors. Ticket takers at the game last night were alerted to turn down the phony tickets.

BUSINESS CENSUS
A business census, being conducted nationally by the U. S. Dept. of Commerce, will have Erie as its headquarters for the district and will get under way about April 15. James L. O'Toole, of Sharon, is serving as district supervisor. Census workers will work with retail, wholesale, service, hotel and construction establishments and secure a volume of sales, employment figures and location data.

INCOME TAX FIGURES
Income tax day notes: The government's tax collections for last year, stacked in \$1,000 bills, would make a pile 14,652 feet high. That, said Rep. Mack (R-Mass.) respectfully, would be "about 2 1/2 miles high, or 26 times as tall as the Washington Monument." Mack prepared this interesting statistic in observance that Tuesday was the last day for tax payments. If you made over \$600 in 1948 and didn't file a return by then you're subject to a penalty of 25 per cent of the tax.

WILLYS OVERLAND CUTS
A dispatch from Toledo, O., says the Willys-Overland Motors has announced price cuts from \$25 to \$270 in its entire line of jeeps, passenger cars and trucks. President James D. Mooney attributed the reductions to more and lower-priced materials, elimination of annual model changeovers and Willys' "functional design which eliminates the wasteful use of materials in frills that add nothing to a motor car's performance or comfort."

MAY BOOST PERMITS
A plan to boost the learner's permit fee for a driver's license from \$2 to \$2.50 today was reported from the house motor vehicles committee in Harrisburg for floor action. The increase would be earmarked for operation of a driver's education program in local schools under supervision of the Department of Public Instruction. House committees also approved these other measures below cost: increase from \$500 to \$1,000 the ceiling on contracts which boroughs may award with-

the place of a federal law after March 31.

(But the Maryland law ends June 1 and the Illinois and New York law ends June 30.)

This dropping of federal rent controls—although under different circumstances—is the high point in both house and senate bills.

But both bills would allow rent increases, although in different ways:

Senate—Let landlords raise rents 5 per cent on Oct. 31, 1949, and another 5 per cent on March 31, 1950, provided that—

The total increase the landlord got did not exceed 15 percent above what he got for his place on June 30, 1947.

So a landlord who already had raised rents 15 percent since June 30, 1947, under the senate bill couldn't get another increase.

House—Wipe out that part of the present law which lets landlords, through agreements with tenants, raise rents 15 per cent, although such agreements already in effect wouldn't be disturbed.

Bill Boosting Hunter Fees Is Approved

Harrisburg, (AP)—A proposal to boost hunting license fees from \$2 to \$3.15 has been approved by the House of Representatives today. The bill, which also provides for a 10 percent increase in the fee for a deer license, was passed by a vote of 101 to 71. The bill is expected to become law before the end of the session.

The bill, which was introduced by Rep. L. B. Jones, of Warren, provides for a 10 percent increase in the fee for a deer license, from \$2 to \$2.15. It also provides for a 10 percent increase in the fee for a general hunting license, from \$2 to \$2.20. The bill also provides for a 10 percent increase in the fee for a trout license, from \$1 to \$1.10.

The bill is expected to become law before the end of the session. The bill is expected to become law before the end of the session.

THE NATION TODAY

By JAMES MARLOW

Washington—(AP)—This is an ABC on rent control, bringing up to date what's happened so far. Nothing final has happened.

The present law controlling rent ends March 31, unless congress passes a new one. It hasn't yet. It's pretty sure to.

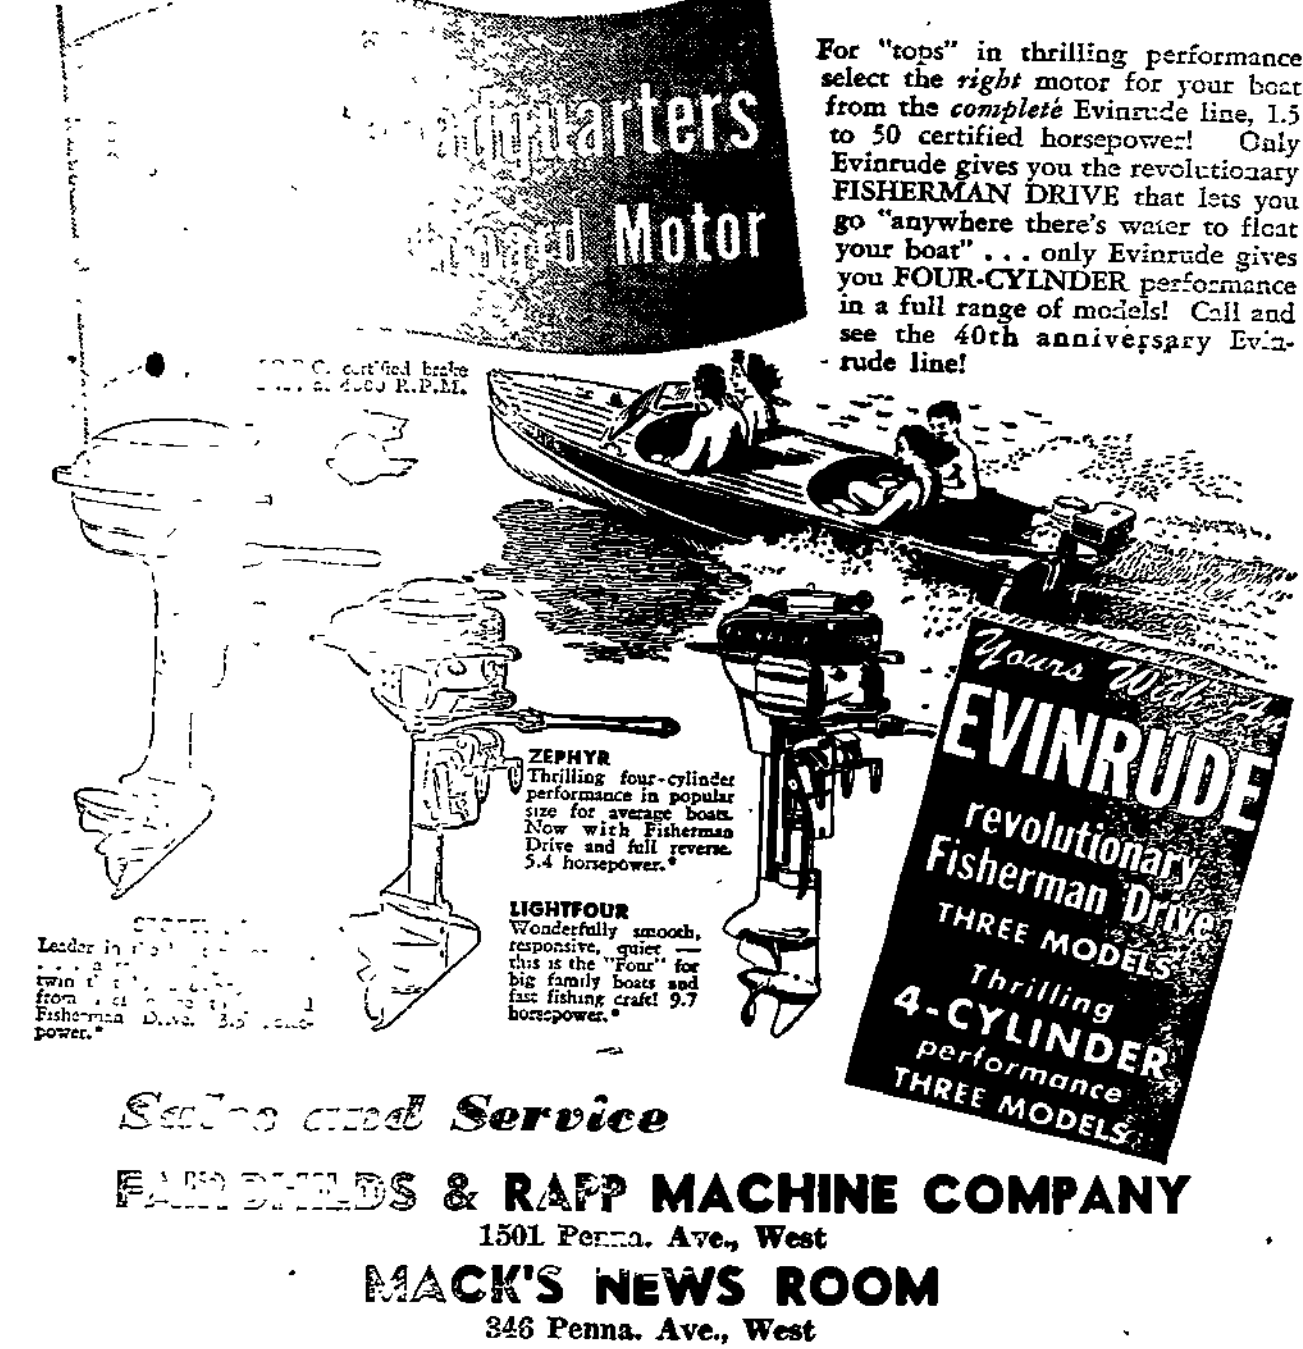

The only action up to now has been this: The house passed a rent bill; the senate is getting ready to vote on one, maybe next week.

From what's been said and done in both houses, these points stand out:

1. Congress seems to think we've reached the point where the states at least, ought to be free to handle their own rent problems, if they want to.
2. Congress seems to think that a new law should not continue federal rent controls for more than another 15 months, or until June 30, 1950. (President Truman's aides wanted controls for another 24 months.)
3. The house bill... the big point is called the "home rule" feature. If it becomes law, it would mean this: Any state, city or county could throw off all federal controls any time it wished even though that state, city or county had no rent controls of its own. In short, it could end rent control for itself.
4. The bill which the senate is preparing is different. It wouldn't permit dropping of all controls.
5. The senate bill... all federal controls would end in any state whose governor merely announced his state had "adequate" controls of its own.
6. (At present only five states—Connecticut, Illinois, New York, Maryland and Virginia—have rent control laws of their own to take the place of a federal law after March 31.
7. But the Maryland law ends June 1 and the Illinois and New York law ends June 30.)
8. This dropping of federal rent controls—although under different circumstances—is the high point in both house and senate bills.
9. But both bills would allow rent increases, although in different ways:

THIRTY YEARS OF SERVICE

This week the American Legion is celebrating its 30th anniversary, a week devoted to special events by thousands of posts which are observing this event.

The largest organization of war veterans in the world and having over three million members, together with nearly a million Auxiliary members, the American Legion has established itself as an outstanding patriotic organization dedicated "for God and Country" to the welfare of the ex-servicemen and the nation at large.

Through 30 years of service the American Legion has made a profound impression upon the lives of the American people with its many and varied activities. There is no organization that is more hated and feared by Communist Russia than the American Legion. "There is no compromise on Americanism—all or none" is the Legion's creed on this national subject.

In Warren, Chief Complanter Post organized about thirty years ago, is rapidly growing in numbers. It has taken part and promoted many community activities and has contributed in labor and funds to the welfare of the community. Today it is housed in its beautiful home in Pennsylvania avenue west, considered one of the most popular Legion homes in northwestern Pennsylvania.

The American Legion is dedicated to America—nothing else. It permits neither race, creed, politics or religion to interfere with or influence its policies or activities. It is 100 per cent for America and endeavors to inculcate in each member a sense of individual obligation to the community, state and nation.

Smoke-clouds are gathering over Yugoslavia—and here there's smoke there must be fire. The Balkans are boiling with reports that the Cominform (the powerful Communist International Information Bureau) is engineering a coup to overthrow Yugoslavia's Premier Tito because of his open revolt against Moscow's dictation. The Italian news agency Astra has reported that Yugoslavia is virtually hemmed in by anti-Tito forces on her Albanian, Greek, Bulgarian and Hungarian frontiers. The agency further says Soviet formations are on the Romanian and Hungarian frontiers, and Russian technicians have been flown into Albania. There even are reports that rebellion already has started in some Yugoslav towns and villages.

The Consolidated Cigar Corp. has reduced the price of its two best-selling brands from a dime to nine cents. Since the cigars used to sell for a nickel that may not seem like much of a cut. But it's the first break in tobacco prices and, as such, is welcome.

Perhaps the industry will catch fire—or at least get a light—from this idea and start disinflating, puff by puff, back toward the famous goal of Vice President Marshall's quest—the good five-cent cigar.

Officially, spring will arrive Sunday and the Groundhog's six weeks' period of winter expired this week. The weather desk is being cleared for "balmy day" features, and spring fever!

It is good news to learn that the Legion is planning to resume the popular "Easter egg hunt," an activity that was curtailed during the war years.

LENTEN SERMONETTE

The Rev. Grant L. Mottorn,
Methodist Church, Clearston

Tests of a Christian. 1 John 5:1.
"Whoever believeth that Jesus is the Christ is begotten of God; and whosoever loveth him that begat loveth him also that is begotten of him."

A Christian is one who has accepted Christ as a personal Saviour. He may call a Christian nation, but in reality it is not. We speak of ours as a Christian community, but in the strict sense it is not. People do not like to be called heathens or infidels, so we usually speak of our people as Christians. The name has been accepted and the people are pleased to be called under it. But to belong to a Christian civilization does not make one a Christian. Becoming a Christian implies a personal transaction between the soul and Christ. A Christian is one who, realizing his sinful and lost condition, has put his trust in Christ for salvation.

A Christian is one who is trying to follow Christ. He studies to know Christ's will and to do it. He is a learner in Christ's school. He may not succeed as well as he would like, but he presses toward the mark for the prize of the high calling of God—Christ Jesus. People may ridicule him when he fails, but all the same is known of his Master as one who is faithfully trying to do what he would have him be.

A Christian is also one who is enlisted in the cause of Christ. He not only strives to be himself like Christ, but actively helps promote Christ's cause. He strives also to get others to enlist. He does all the good he can, to all the people he can, in all the ways he can, as long as ever he can. Christ's cause becomes his use; Christ's glory becomes his glory.

Here And There

An item that appeared in the columns of the Evening Mirror of fifty years ago today indicates that back in March, 1899, Russell must have had his own newspaper. Says the article: "The Russell Record says it has been informed that an amateur preacher is going around in Adelsyde Hollow, praying with the good sisters who will let him, and he usually contrives to drop around when their husbands are absent. At the last house he visited, he attempted to kiss the good sister, after concluding their prayer, but she objected in a very decided manner, and with the aid of a poker, succeeded in driving him from the house." And here's another from the same issue of more than passing interest right now: "The state legislature, always prodigal in the matter of rest, has passed an act setting apart May first, as a legal holiday to be known as Devey's Day. If the governor signs the bill, it will be a day when the legislature is busy preparing for what they

Incidentally Franklin is scheduled to play Sharpville in another of those all-important title games. "Bill" McIntyre will be installed as new exalted ruler of the Western Lodge of Elks at the next meeting, and Ruel Smith, who has had one of the best terms in recent history of the lodge, will join the ranks of past exalted rulers. At last reports Corry's Red setting apart May first, as a legal holiday to be known as Devey's Day. If the governor signs the bill, it will be a day when the legislature is busy preparing for what they

YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

1929
The protested game between the Bulldogs and Hodges was a rough one with the decision going to Hodges by a 44-31 score. Hodges are now in a tie with Wards for top place in the city loop. Spring fever was responsible for the absence from school of fourteen students of Corry High, who took French leave from their classes and spent the afternoon hours burning up the roads between Corry and Erie. Principal Howard J. Sheen imposed extensive punishment, including curtailment of extra-curricular activities and especially, the postponement of the light opera which was to have been staged by the Glee Clubs. "Take My Advice" is the title of the play to be given this year by the senior class of Warren High. It was announced by Miss Anna Louise Kahl, director of dramatics. Tryouts are being held now. W. T. Kelly, manager of the Pickett Hardware Company, has it known the plan of the Hickory street business man to install eleven new ornamental lights on that street between Pennsylvania and Third Avenue, thus making this one of the best lighted streets in the borough. The owners are not only installing these lights at their own expense, but will be responsible for the upkeep. Southern Alabama towns are under water so deep, only tops of houses are visible. Fate of many citizens of these towns was in doubt as Spring floods inundated other states also, among them Nebraska, Illinois and Iowa. The New Process Company has plans for remodeling and rebuilding the Hickory street store.

1939
District Attorney J. H. Goldstein, Conewango avenue, arrived home from Harrisburg, where he went to see Judge William B. Hirt sworn to the superior court. The Girl Scouts are celebrating their 27th anniversary. In Youngsville, eight players and the manager of the high school basketball team, are to receive letters, it was announced by Coach Clyde E. Moore. Those receiving the coveted "Y" are John Shaffer, captain; John Richards, Theron Johnson, Burnell Main, Robert Meleem, Milton Hoover, Ronald Wood, Robert York, and Manager Robert Caldwell. United Mine Workers asked for a fifty cents a day boost in pay and a thirty-hour week (Times' survey) changed a bit. Jeannette MacDonald and Nelson Eddy are appearing at the Columbia in Sweathirts. Miss Elizabeth Lopez, daughter of Mr. and Mrs. A. M. Lopez, Redwood street, and Miss Mary Ellen Smith, daughter of Mr. and Mrs. Harold Smith, Conewango Place, were home for the weekend from Seton Hill College in Greensburg. With the British cautiously condemning Germany's latest occupation, Hitler's army crossed the border on the way to Prague. Installation of waste and other equipment to be used here for the pick-up and delivery air-mail route which will start soon, took place at the Warren airport when officials of the All-American Aviation corporation paid a visit to the borough in connection with the opening of the service.

MacKenzie's Column

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
One of the most logical minds I know is possessed by my colleague Howard, Blakeslee, science editor for the A.P. He is so logical as to be almost terrifying to less tidy mentalities.
Every once in a while he breaks away from his atomic theories, and takes a critical view of foreign affairs, applying the same cold reasoning, he devotes to his science. Frequently I get the product of his analyses, generally in the form of a note or a letter, delivered by messenger, although Blakeslee's quarters are only a few steps from my desk. The latest is the following:
"Dear sir:
"May I suggest that your column take time out to state the right and left of things?"
"The Russians, for example, are farther to the right—politically and socially speaking—than any other great nation, and probably than any small country, even though with absolute potestates for governors."
"Russia is governed by a small aristocracy, the Communists. By the largest estimates, these Russian Communists are not more than four per cent of the Russian people."
"They form a tight aristocracy—tighter than the traditional aristocracies that were based on inheritance."
"Their government is despotic. It is as despotic as that of the traditional despots."
"Possibly the extreme rightism of the Russians is not surprising. For generations they were governed

ed despotically by Czars. They haven't changed. They still have the same sort of extreme right government."

"By comparison, the United States, Britain, France, any great nation you can name, are far to the left."

Does it give you a shock to be told that what you have been calling "left" is really "right"? The terms "left" and "right," as used politically, originated long ago in Europe. In many parliaments, the designation of "right" was applied to the conservatives and monarchists who sat at the right of the presiding officer. Their opposition, the so-called liberals sat on the other side of the official, and so were termed the "left."

On this basis we see, as Blakeslee asserts, that the further we go to the right, the closer we come to fascism. The further we go to the left the nearer we approach "democracy," which is ruled by the majority. Bolshevism, which is the modern Russian version of Communism, is ruled by a small minority, although the term "democracy" actually means majority.

Now we arrive at the conclusion that the greater the restriction placed upon the individual by government, the further we go to the right, and the further away we get from democracy. The greater our democracy the more we are moving to the left. And the moral of all this? Well, I should say it is to exercise care in employing the terms "left" and "right." The safest way is to be sure to say "democracy" or "fascism."

Hal Boyle's Comment

New York—(P)—One of the mysterious things about the mysterious east is that comparatively few Chinese have heart disease or ulcers.

This cheerful fact is partly responsible for a boom in Chinese restaurants. People come to them in the hope that if they eat like the Chinese they'll feel as good as the Chinese.

"Now there are more than a thousand Chinese restaurants around New York," said Jimmy Young, a patriarch in this field.

Jimmy, a smiling, agreeable snore, weighs only 110 pounds, with a chopstick in each hand, is perhaps the man here who did most to transform the old off-the-bowery Chinese chop suey parlor into a modernized and put in dance band music.

"Thirty to forty years ago many decent people wouldn't go into a Chinese restaurant," he smiled. "They didn't think it was respectable. All that is changed now."

Today, Young said, only "neurotic" and "scholastic" order the twin standbys of the old-time Chinese restaurant—chop suey and chow mein.

"People now want to eat real Chinese dishes—the dishes we eat ourselves."

His own favorite is chow saung gai pan, described on his Lun Far restaurant menu as "fresh white meat of chicken deliciously sautéed with hearts of bok choy, bamboo shoots, water chestnuts, fresh mushrooms and a touch of ginger."

American doctors have a high rate of heart disease. It is perhaps more than a coincidence, then, that many of Jimmy's patrons are doctors.

"One doctor has sent me more than 50 of his patients who suffer from high blood pressure," he said.

New York—(P)—A sudden blot in the brain struck down an elderly civil engineer at the peak of his career.

The stroke left him bed-ridden, voiceless, hopeless.

In time he came—on a stretcher to the Manhattan Beach Veterans' Hospital in Brooklyn. He found company there among its

WE GOT OUR HEADS TOGETHER
ON A CHECKING ACCOUNT
My husband said we'd each take so much out of his salary every week, for expenses, and put the rest into the bank. I said, no—I couldn't get along on the same amount every week because some weeks I'd have more bills to pay than on others. He said, well—we couldn't leave so much cash around the house from week to week—it wouldn't be safe. A friend said, why didn't we two get our heads together on a joint checking account? Then we could pay by check and both draw out what we needed, and no more. That's just what we've done, and we're happy about the whole thing! For us, it works beautifully!

Jaycees Consider Plans For Series of Community Forums

Members of the Warren Junior Chamber of Commerce Wednesday night made plans to conduct a series of community forums over Radio Station WNAE. A committee was formed to work with Manager David Potter of the local station in presenting these forums which will give local citizens a chance to voice their opinions on both local and national issues.

William Lutz, Jr., will chairman the Jaycee committee with Francis Buchanan and Glen Nelson assisting. The committee invites suggestions from persons who may have a topic in mind that could be discussed. WNAE will furnish the radio time on Sunday afternoon for the Jaycees to carry on their latest project.

The greater part of last night's meeting which was presided over by Vice President Harry Schmidt, was devoted to a discussion of the coming Fourth of July celebration and the Jaycees present volunteered for the committees working on this project.

A discussion was also held pertaining to the establishment of a youth center in the old golf course building at the YMCA and a committee will meet next week with members of the Y board to consider the project.

P. T. A. Hears
Fine Lecture**

Youngsville, March 17 — Dr. Samuel T. Robbins was the speaker Tuesday evening at the meeting of the Youngsville P. T. A. Dr. Robbins' subject was "Family Life." This was a subject for which Dr. Robbins has spent much time in research. He holds degrees from several of America's leading colleges and has had practical experience with child and youth in their problems in the school room and in corrective institutions. Dr. Robbins talk about home life and its influence on childhood, stressing the bad influence on children of broken homes. He brought out the fact that kindness, honesty and frank-

ness were necessary elements in developing strong characters. Musical features of the program were several vocal selections by Donald Aberg with Miss Lillian Swanson as accompanist. They were Irish and Scottish songs. Two numbers of the musical program were piano solos by Donald Walter. Pleasing refreshments were served by the 4th and 5th grade mothers in the cafeteria to the large group present, many being from out of town. Dedication services will be held next Sunday at both the Youngsville and Irvine Methodist churches. All attending will be presented with small Easter crosses at the morning worship period. Strong and inspirational addresses are being presented this week at Youngsville Methodist Advance Services. Tuesday evening the speaker was Rev. MacIntosh, of Corry. His topic was "Ye Are the Salt of the Earth." The musical feature of the evening was a piano and organ duet with Miss Edith Husted at the church or-

gan and Mrs. Carlson at the piano. Wednesday evening the speaker at the Advance Service was Rev. Mr. Sipe who used as his theme, "The Healing of a Syrian General." At the Methodist Advance Service for Thursday evening the speaker was the Rev. Harold Lindquist, with Miss Norma Haight as soloist. Friday evening, Rev. Furman, of First Church, Warren, will be the speaker and there will be special music.

Youngsville friends will be interested in the letter which arrived this week from Mr. and Mrs. Frank Black, who recently arrived in Rockport, California, driving through from Youngsville and being held up on several occasions by snow. In one place where they were held up for several days, it was the first snow for this town, Roswell, New Mexico, in twenty-five years. Though they had a comparatively good trip, it was cold all the way. Rockport, where the Blacks are located, is a new town just being built in the Redwood country. These Redwood trees are older than 2000 years by estimate, many being ten and twelve feet thick and straight up, for, Mrs. Black doesn't dare put the distance in feet, but says it seems like a mile. The Blacks are near the ocean and see seals and many ocean birds. Flowers are coming beautifully now and many lovely wild flowers grow near her home. The town is new with many of the conveniences not yet installed. They have artificial gas and electric lights which go off at 10:30 p. m. The Blacks send regards to all their friends in Youngsville and to others in Warren county and vicinity.

A group from the Brokenstraw Garden Club attended the Garden Club meeting in Clarendon last evening, to which the Youngsville Garden Club and other clubs in the county were invited. A pleasant day with St. Patrick's Day features was the meeting of the Martha Workers' Class held Wednesday at the home of Mrs. Charles C. Johnson, West Main street. There was a fine at-

tendance of this ladies' group from the E. U. B. church. A two course luncheon was served at a long table decorated in St. Patrick's motifs. Mrs. Albert Lungren had charge of the program and Mrs. Merle Freeborough, as president, conducted the business session. Mrs. Johnson, hostess, was assisted by Mrs. David Hotchkiss.

★ WEEKLY BIBLE COMMENT

Jesus Knew No Religious Prejudice

BY WILLIAM E. GILROY, D. D.

ONE of the most amazing and revealing incidents of our time is the spectacle of certain people preaching and practicing racial and religious prejudice in the name of Christ. And much of this prejudice has been directed against Jews, of which religion was Jesus himself, and from whom we received, not only the riches of the Old Testament, but the records of the New, and the church itself.

When Paul spoke of the Gospel of Christ, he emphasized its universality. His mission and ministry, he insisted, were to Gentiles as well as to those of his own religion, both to the Greek and to the Jew. It was his boast of the Gospel that it had power to change any man.

Was Paul in this a true interpreter of his Master? Or did Jesus in any way limit His mission, or the benefits and privileges of the grace of God?

THERE are one or two incidents that viewed lightly, or thoughtlessly, might indicate that. But the whole story of Jesus, the revelation of His spirit, and the general records of the four Gospels, are so much against any such interpretation, that these incidents must be seen in the light of the full evidence.

One of the most puzzling incidents, if we read the record with-

out insight and imagination, is that of Jesus and the Syrophenian woman in Mark 7:24-30. This troubled Grecian woman had brought her demented daughter to Jesus, beseeching Him to heal her. Jesus had retired to a house, hoping for privacy and rest, but the woman heard of His being there, and was persistent in her effort to see Him.

Her importunity must have impressed Him, but evidently to test her faith He put in her way stumbling blocks that seemed harsh, and even cruel. Voicing the common religious and racial prejudice, He said, in effect, "Do you ask this of Me, a Jew? It is not meet to take the children's bread and give it unto dogs." But He was voicing, not His own thought, but the sort of thing that racial and religious prejudice thinks and says, for He was about to bless the woman and her daughter.

Had we been there, we would undoubtedly have seen the look in His eye, and observed the manner that belied the seeming harshness of His words. And He drew from the woman the reply that pleased Him. Dogs must be fed. Human need transcends prejudices.

So the incident, and the healing, actually rebuked those who would have turned the woman away. There is no place for racial or religious prejudice in any phase of Christ or His Gospel.

Visit of Grand Exalted Ruler Hall is Red Letter Event For Elks

(From Page One)

terior of the banquet hall had been most attractively decorated by the committee in commemoration of St. Patrick's Day, with green and white streamers laced across the ceiling and large green shamrocks artistically adorning the walls. Members of the house committee who served as waiters were green neckties.

The grand exalted ruler and other notables in the party were given a rousing welcome when they entered the hall and took their seats at the speakers' table. The dinner was prepared by the Lewis Catering Service and consisted of roast beef, mashed potatoes, peas, brown gravy, salad, rolls, celery, olives, pickles, Shamrock ice cream, cake and coffee.

The invocation was delivered by the Rev. Beecher M. Rutledge of Trinity Memorial Episcopal church. Music during the dinner was provided by Jordan's orchestra.

Exalted Ruler Ruel H. Smith extended a brief and cordial welcome to Mr. Hall and other guests, after which he introduced Burgess W. F. Crossett, who officially greeted the visitors on behalf of the community.

Mr. Smith then presented Lee A. Donaldson, past president of the state association, who contributed much to the pleasure of the evening in his efficient capacity as toastmaster.

In his opening remarks Mr. Donaldson referred to Warren as "a true state." After his short remarks the Warren Elks quartet was introduced, composed of Howard Johnson, Stewart Nelson, William Duff and Arthur McDonald. The singers were loudly applauded after their group of three numbers.

The grand exalted ruler was presented by the toastmaster and Mr. Hall responded with an address that will go down in the history of local Elksdom as one of the most impressive ever delivered in Warren. After paying tribute to his associates of the grand lodge, Messrs. Masters and Schrader, he spoke of the fine time he was enjoying in Warren. He said he was glad to be in Warren, and thanked the officers and members of the lodge for inviting him, declaring that it was a visit he never would forget. He complimented Warren lodge and its officers, describing the local lodge as one of the leaders in the state. Mr. Hall stated that he had been in the lodge since he was installed at Philadelphia last July, declaring that his stop here was his 18th visit, among the 1,500 lodges in the country.

Mr. Hall centered his remarks mostly on the campaign he has been waging "to preserve the American way of life." He spoke of the National Foundation, a trust fund which makes it possible for the Elks to do a wonderful work among crippled children, in awarding scholarships to deserving students, aiding destitute families, etc. He lauded the Elks for their work in promoting Boy and Girl Scout troops, told of many persons who have been helped by the Elks' work in visiting Crippled Children's Hospitals, Elks Fraternal Centers, etc.

Mr. Hall stressed his slogan "Make Democracy Work," and explained in detail why he was touring and speaking to public gatherings generally, warning about the menace of the "Reds" in the country. "We have no quarrel with Russia," he said, "as long as they keep their teachings where they belong."

He urged the Elks listeners to work toward higher pay for leaders of the country. "The Elks have a job to do," he declared, "and that is to sell America back to the youngsters."

It was without doubt one of the most inspiring and thought-provoking addresses heard in Warren in recent years, and Mr. Hall received thunderous applause when he finished.

Following the talk, the toastmaster, on behalf of Warren Lodge, presented Mr. Hall with a certificate for a suitable piece of electrical equipment that will be delivered to his home in New York. Mr. Hall gratefully acknowledged the gift on behalf of himself and Mrs. Hall.

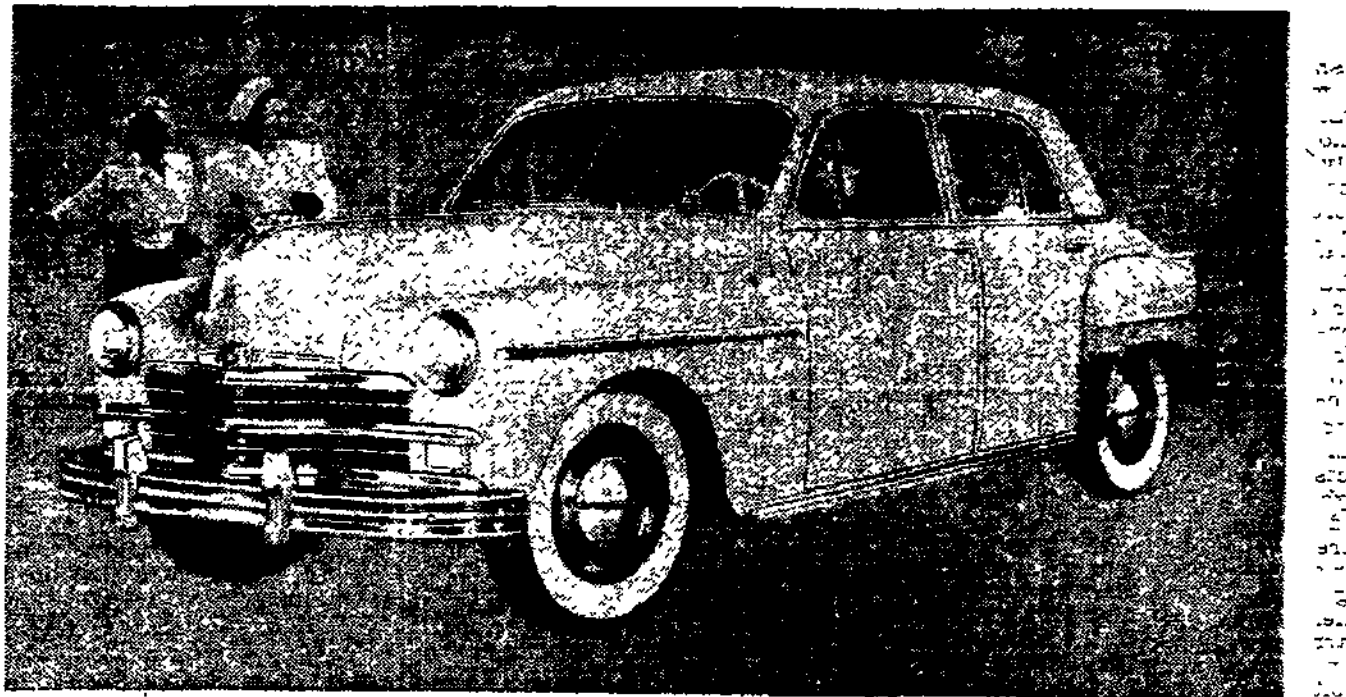

There followed a round of introductions of distinguished guests by the toastmaster, with the only response being made by Grand Secretary Masters who is no stranger to many members of the local lodge. All guests at the speakers' table were introduced and each took a bow, after which the officers of Warren Lodge were presented, and a big hand was given the house committee.

The entertainment was provided by George Bailey, of Freeport, who followed with a program of music, and a vocal group that kept the large crowd in an uproar most of the hour and a half that he held the stage. Mr. Bailey made the same tremendous hit that he has scored in previous visits to Warren and surrounding towns.

The crowd adjourned to the club at 10:30 for a reception and buffet lunch, with entertainment being provided by Rudy's Trio, of Buffalo.

Exalted Ruler Smith and his hard-working committees are to be commended for the success of the event. They received generous praise both from visiting Elks and

New Plymouth on Display

Plymouth's new special deluxe four-door sedan (above). Throughout the new Plymouth line beautiful streamlined bodies are lower and narrower, seats are wider and headroom greater. At the same time overall exterior dimensions are reduced, but wheelbase has been lengthened to 118 inches and glass area is increased. Horsepower is raised to 97. Although fenders flow gracefully into the body they are detachable for ease in repair.

New Plymouth Features Beauty, Performance, Safety and Comfort

Brilliant new styling is combined with outstanding riding comfort, increased roominess, and sweeping mechanical improvements in the new line of Plymouth automobiles.

Completely redesigned, the new Plymouth has a longer wheelbase for a better ride and more road stability, but less front and rear overhang for easier parking and garaging. While the silhouette has been lowered and the width decreased, there is more head and leg room and seats are wider. Typical of Plymouth's many refinements is the ignition-starter combination, with which a turn of the key starts the engine.

The new Plymouths are sleek in appearance. New rear-end styling provides a graceful balance with the horizontal grille lines which emphasize the broadness of the front.

Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal panels so costly to repair or replace.

The new Plymouth line includes nine distinct automobiles. Special deluxe and deluxe types are on a 118-inch wheelbase, one inch longer than last year's. Special deluxe models are: four-door sedan, club coupe, convertible club coupe and station wagon. In the deluxe group are the four-door sedan and the club coupe. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase, a two-door sedan, a three-passenger coupe, and a new body type, the Suburban.

The 97-horsepower engine has improved performance and efficiency with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, smoother engine warm-up and produces faster throttle response.

Body styling which produces greater passenger room without excessive bulk also increases visibility. V-type windshields have 37 percent more area and provide excellent vision without distortion. Windshield wipers clear 61.5 percent greater area and the rear window is 35.4 percent larger.

Primary In September Is Probability

Harrisburg, March 18—(P)—Pennsylvania's primary election this year probably will be held Sept. 13. A bill in the senate to move up the date to June 21 appears headed for failure.

"I can't see any good reason for the change," said Chairman A. Evans Kephart (R-Phila.), of the senate elections committee.

The bill would re-enact the 1944 soldier vote law which expired automatically at the end of World War Two. Under its provisions, primary elections were held in June in odd-numbered years instead of the fall. The change gave members of the armed forces an opportunity to obtain ballots for the primary.

Sen. O. J. Tallman (R-Lehigh), sponsor of the June primary measure, said "it all boils down to the question of whether or not we want to give our soldiers a chance to vote."

He explained that his bill would give election boards at least 38 days before elections to mail out the ballots. The present primary set up gives insufficient time for ballot mailing.

Kephart, however, commented that most soldiers "just aren't interested in voting anyway."

He added that his committee probably will retain possession of the bill and allow it to die, unless there is a demand for floor action.

Under the general election code primaries in even-numbered years, when congressmen, U. S. senators, the governor and other state officials are elected, are held in April. The primary in odd-numbered years usually is confined to election of local officials.

However, one state-wide official will be nominated and elected this year. The term of Judge William E. Hirt, of Erie, of the state superior court, expires this year. He is expected to be a candidate for re-election.

Pittsburgh, Scranton and a number of third class cities will elect their mayor. Various other county, city, borough and township officials also will be elected.

Hal Boyle's Comment

(From Page Four)

"forgotten men," graduates of the first and second world war with ailments so serious their recovery chances were doubtful.

And he found women there who were willing to spend endless time to help him find his voice again. They were volunteer gray ladies from the Brooklyn Chapter of the Red Cross.

"They took him into a small room for treatment of victims of anaplasia, the loss or impairment of speech that comes from certain illnesses and brain injuries. It was a bright sunny room, but the engineer felt alone and lost. He wanted to be by himself."

"He would get hysterical and weep," recalled Miss Elizabeth Kelly, one of the gray ladies.

The engineer watched morosely as Miss Kelly and Florence Conklin, another volunteer, held up small cards on which words had been printed. He saw other patients pronounce anew the words—"book," "bird," "eat"—simple childhood words that had become lost in the broken pattern of the vocal paths in their brains.

There was a young combat veteran whose head had been struck by shrapnel. He learned 400 words in a year. There was little Frankie, a veteran of the first war who learned to walk after being paralyzed for 12 years.

Frankie, the hospital's best morale builder, inched on tortured feet to the engineer, as he did to all the other patients, and mumbled to him through a thick tongue.

"Fight! Fight! Fight!"

And gradually the engineer summoned up the will to try—fight to overcome the damage wrought by the hidden enemy in him, a broken blood vessel. There was nothing wrong with his intelligence. He could still understand. He could still read. But he couldn't even pronounce his own name.

"That is what often comes back to them first—the ability to speak their own names and the names of those they love," said Bernard Therstein, chief of education therapy at the hospital.

Word by word the engineer worked to recover his spoken vocabulary. Miss Kelly and Miss Conklin worked with him alternately, week after week, as long as his strength permitted. Sometimes he learned a word only to lose again the ability to say it—the vocal pattern had clouded once more.

Recently the engineer passed a milestone on his road to recovery. He turned to Miss Conklin and said unexpectedly:

"I'm going home for Easter."

Only five words—but they were the first complete sentence he had spoken in more than two years and the engineer will be home for Easter, able to talk in some degree with his family. There is hope he

will attain almost complete recovery—as some aphasia victims do.

"I've seen some wonderful things happen here," said Miss Kelly, a retired schoolteacher. And she and the other gray ladies have helped them to happen.

"What do these people here have to do to get well?" an attendant asked Frankie as he sat down for a lesson.

"Fight! Fight! Fight!" said the gray-haired old veteran. It is the word he says most often because it has kept him alive and hopeful.

Sometimes, if you think the world has kicked you around, go out to a veterans hospital—and get a lesson in courage.

Divorce in Reverse

To the Editor:

Naturally there are a lot of things about the affairs of you humans that I, being a dumb brute, can't understand. But the case of the 55-year-old Cleveland, Ohio, woman who divorced her 61-year-old husband because he wouldn't guzzle booze with her "takes the cake," as a friend of mine remarked in telling me the story.

I am looking, any day now, to see accounts of wives divorcing their husbands because they refuse to beat them up, support them too well, or neglect to gamble their money away before coming home on pay day. If I had been the judge who heard that case, I would have told that woman to go home and get down on her knees and thank the good Lord for giving her such a fine husband. But of course I don't know the law. Maybe it's grounds for divorce if a husband follows the "strait and narrow" when his wife wants him to traipse with her down the primrose path. Is it?

Death May Be Among Your Souvenirs

If you have, among the war trophies in your home, any "unloaded" weapons, souvenir shells or other munitions, you'd be smart to get in touch with the Army or Navy—quick. Fred Kennel recently bought a house in Washington, D. C. In it, he found two bazooka rockets, left behind by the previous tenant. He asked the Navy Disposal Unit to look them over. Lt. Wilbur Brooks, left, and Lt. Charles J. Dorian did. They found the rockets were deadly weapons, fully armed with the safety pins dislodged. They said the rockets would have exploded if dropped from three or four feet.

He'll Get Ribbed for This Boner

Tootsie, a six-month-old terrier, looks at more bones than he's seen in a long time—and all of them but one are his own. He's studying an X-ray of the 4 1/4-inch pork chop bone he swallowed. The bone was removed by the Anti-Cruelty Society Clinic in Chicago with the forceps shown holding it. When Tootsie came out of the anesthetic, he barked happily, licked the vet's hand and was almost ready to tackle another pork chop.

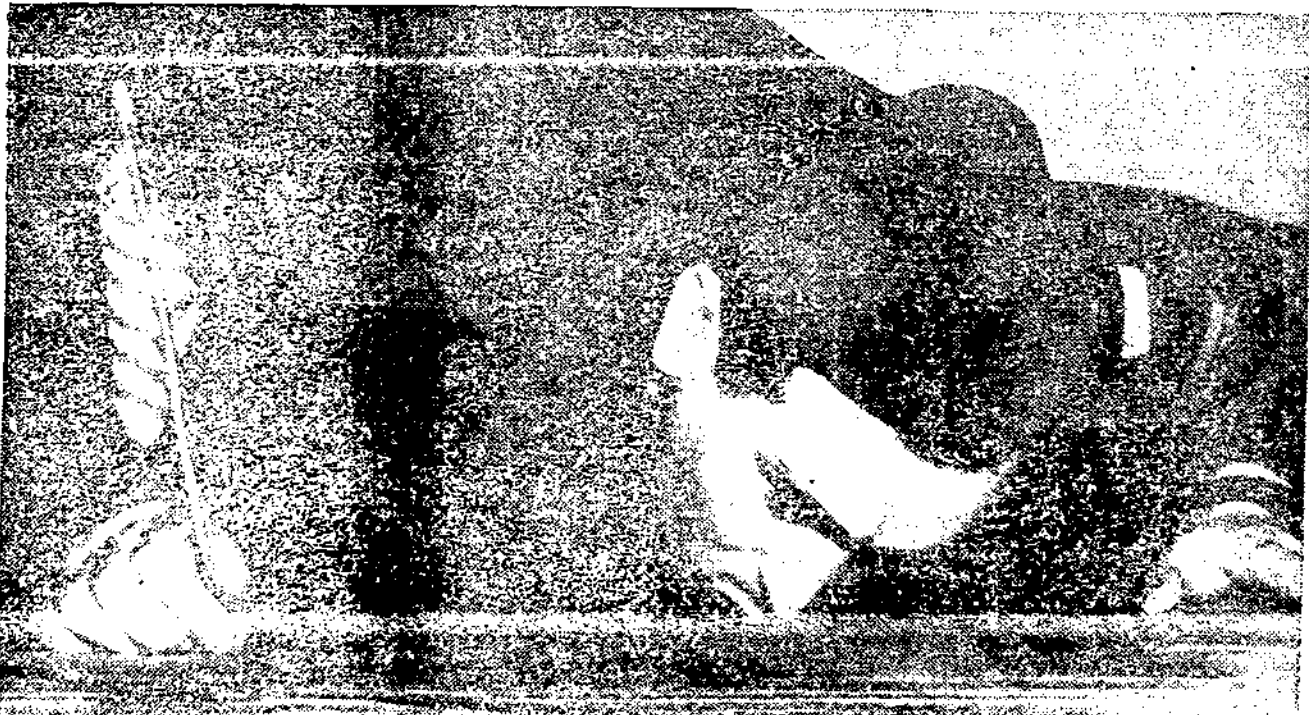

Sidewalk Reading

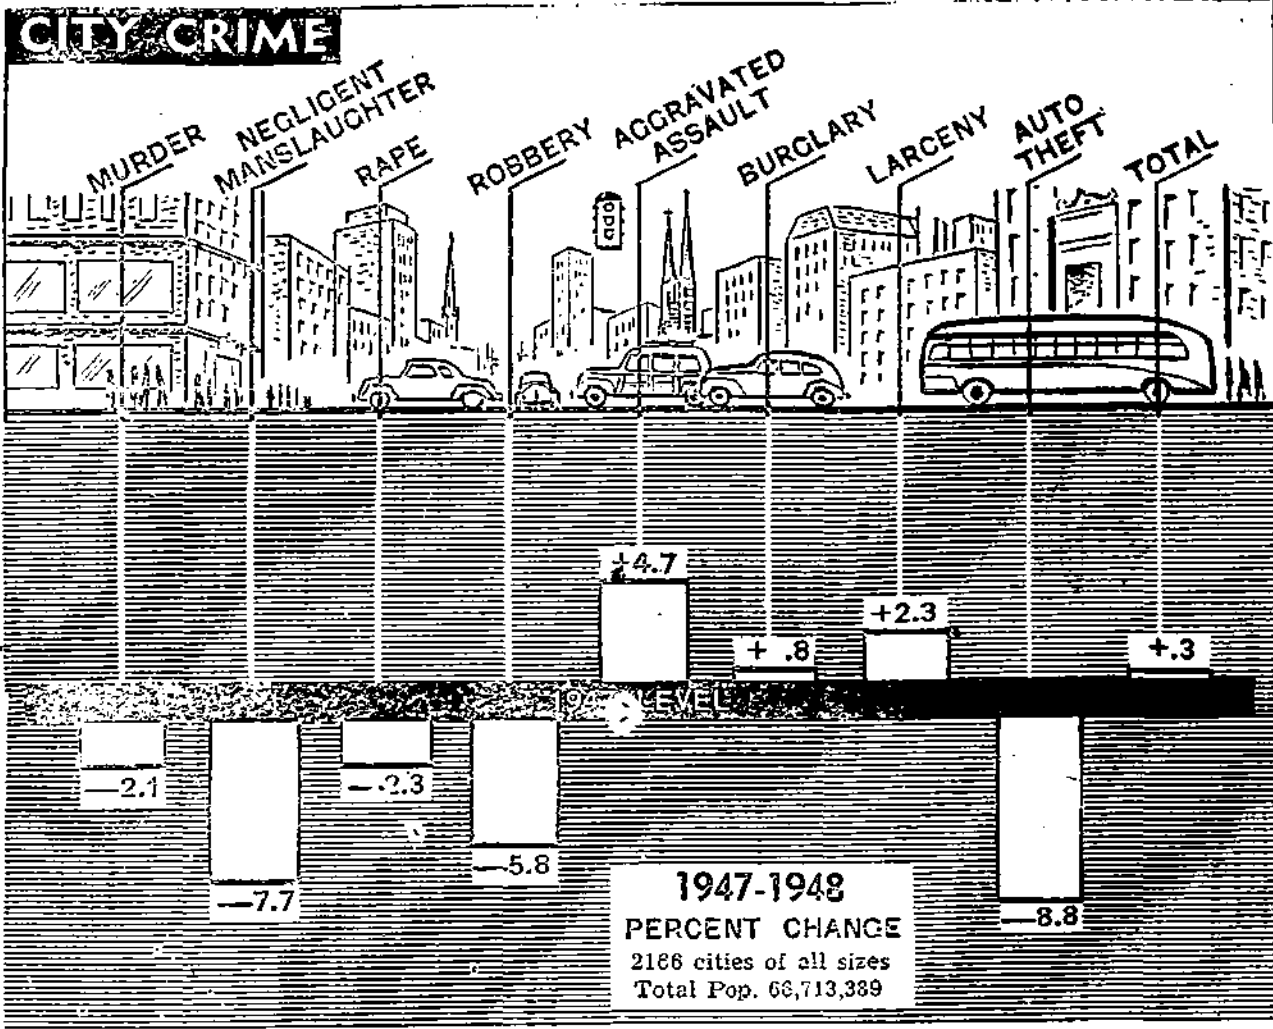

A Roman stops to read pro-government posters supporting the De Gasperi administration's efforts to make Italy a signer of the North Atlantic Pact. The poster on the left draws a parallel between Nazi and Communist occupation of small nations. It reminds readers of the Stalin-Ribbentrop agreement of 1939. The other placard shows a German tank under "1939" and a Soviet tank under "1949."

Dr. Ralph J. Bunche, 44, grandson of a slave and son of a Detroit barber who became acting UN mediator for Palestine, was named winner of the Spingarn medal for the "highest achievement" in 1948 by an American Negro. The award was the 34th given annually by the National Association for the Advancement of Colored People.

Holding a small American flag in his hand, Robak Kazimierz, 33-year-old Polish carpenter, drops to his knees and kisses the soil of the "promised land" in New Orleans, La. He arrived with a group of 848 European displaced persons aboard the Army Transport General Sturza.

Life and property are safer in the so-called "wicked city" than in rural areas, says the FBI's annual crime report. In 1948 major crimes in rural areas increased 4.3 per cent over 1947, while city crime was up only 0.3 per cent. These charts, taken from the report, show the percentage of change in major crimes. By the year's end, an estimated total of 1,686,671 crimes had been committed—or one every 18.7 seconds.

Gravely Ill

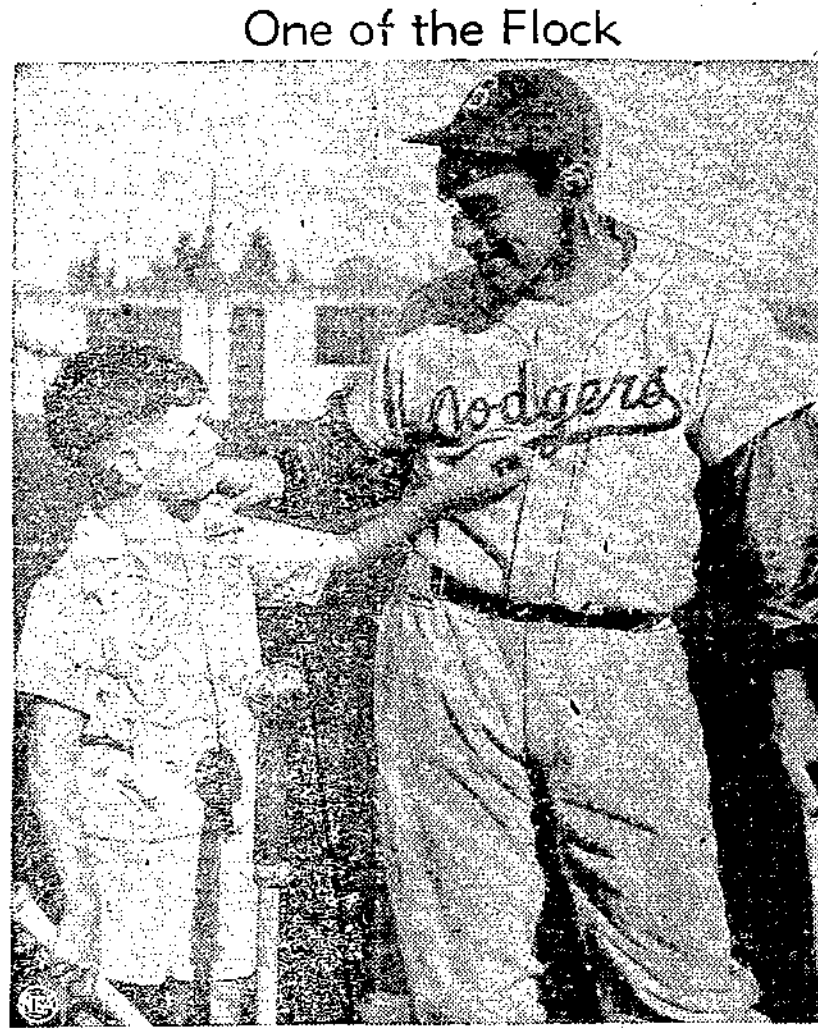

Former Sen. Thomas P. Gore of Oklahoma, 78, is in critical condition in Washington following a cerebral hemorrhage. Blind since childhood, he served in the Senate for 20 years, being elected as one of the first two members from Oklahoma when it became a state in 1907.

Target of Plot

Lt. Gen. James A. Van Fleet, above, head of the American Military Mission to Greece, was reportedly the intended target of an assassination plot by Greek Communists. Greek Minister of Public Order Constantine Rellis announced that the death plot had been discovered and thwarted, and that a number of arrests had been made.

'Lonely Hearts' Killers Booked

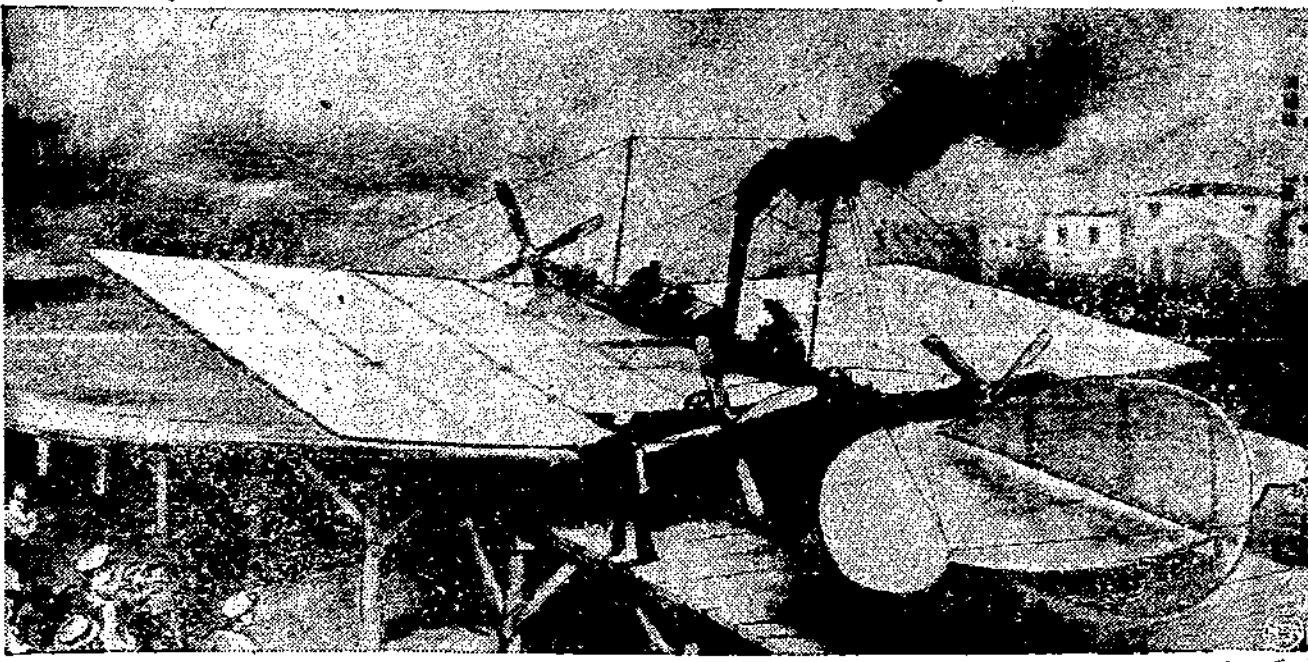

Michigan's "lonely hearts" killers, Raymond Fernandez, left, and Mrs. Martha Beck, right, are shown as they checked in at police headquarters, Mineola, N. Y. Between them is Charles Hildebrandt of the Nassau County detective bureau. The pair was extradited for trial in the hammer slaying of Mrs. Janet Fay, 50, of Albany. Conviction can bring the death penalty.

Up for Approval

The Senate Foreign Relations Committee recommended confirmation of the nomination of James Grover McDonald, 61, of New York, to be the first U.S. ambassador to Israel. He served as special American representative to the new Jewish state during its provisional stage.

Maybe Orville and Wilbur Just Improved on It

This, according to the official Soviet picture agency, is "Mozhaisky's plane, on the runway made of boards, before the takeoff for the world's first flight in a heavier-than-air machine." Unable to furnish actual photographs, the Russians supplied this painting to prove their claim that Russian inventor Alexander Mozhaisky produced this steam-powered flying machine, with three four-bladed propellers, and successfully flew it July 20, 1882.

Trucker of Year

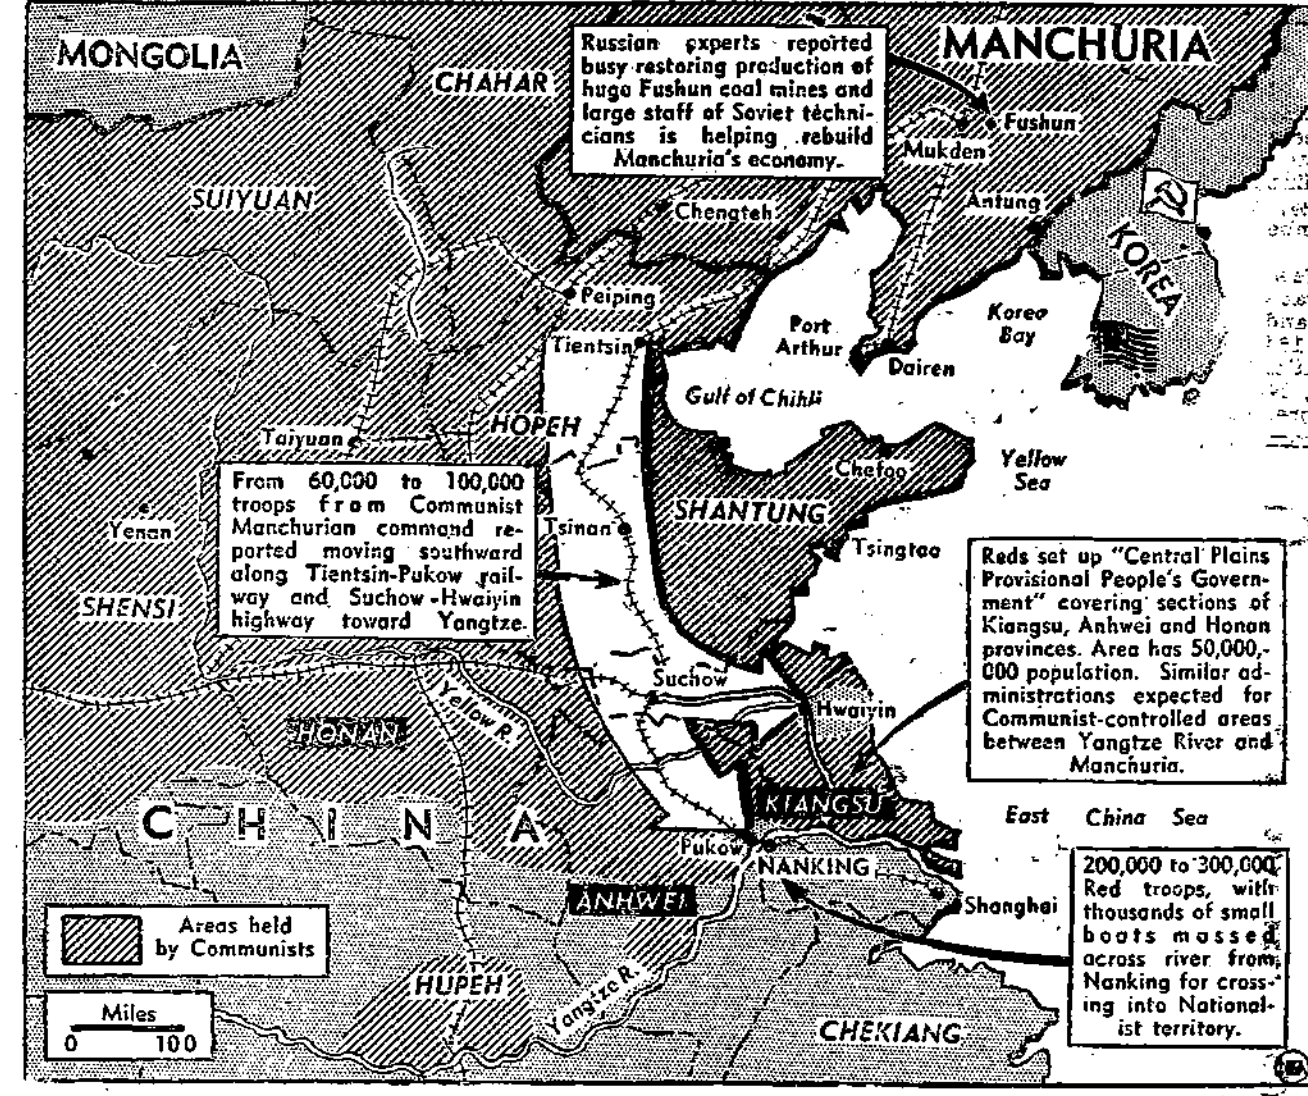

Martin Larson, 41-year-old driver for a St. Paul, Minn., truck line, was named the trucking industry's Driver of the Year. He was selected by a panel of 18 independent judges because of his 18-year record of no accidents and because of a highway rescue of an injured motorist. He will get a trip to Washington and New York and a home freezer stocked with food.

Wire Tapping Expert Turns Up

Kenneth Ryan, right, former New York detective, who escaped from police last Saturday while being questioned in New York City's wire tapping scandal, is shown as he surrendered to city authorities. With Ryan is his attorney, James D. C. Murray. After he had jumped from a City Hall washroom window, Ryan was widely hunted for his possible connection with multimillionaire Clendinning Ryan—no relation—who is involved in a political dispute with Mayor O'Dwyer.

Chinese Reds Put the Heat on Nanking Government

As Ho Ying-Chin, Nationalist China's premier, struggles to form a new cabinet, ominous Communist troop movements indicate the Reds are ready to put more squeeze on the Nanking government to force an early surrender. Map shows how Communists are concentrating large forces near the Nationalist capital. In addition, a regional Communist government has been established in areas of three provinces just across the Yangtze River from Nanking.

Struthers-Wells Drubs Style Shoppers 52-40 to Win League Crown

The Struthers-Wells squad to wear the championship crown the YMCA City Basketball League. Struthers annexed the title by pipping the Style Shoppers, 52 to 40, in a game before a large crowd on the night last night in the second of a best-of-three play-off games.

The Struthers-Wells squad also won the first game, 49-40.

The Style Shoppers were the season favorites to win the league in a breeze. They had the first-half title handily, were nudged out of the second-half title in a "down to the wire" fight with the Struthers squad, necessitating a playoff to decide the champion.

Bisson was close behind with 182-234-153-569 for Times Square, while McClement firing for Penelec, was credited with a 563 aggregate on linescores of 180, 182 and 201.

Babe And Dot Are Leading At Augusta

Augusta, Ga., March 18—(P)—Twenty-six women in the titleholders tournament unbuckled their golfing girdles today and buckled down to catching Babe Zaharias and Dot Kieley as the second round began.

Most of the girls have a lot of catching up to do, however, before they can make up for first-day jitters which forced their scores into the eighties.

Mrs. Zaharias and Miss Kieley divided the first day lead with nearly identical put together 73's. The rest of the field was strung out all the way to a 90. Eight girls weren't too far back to catch up before sundown today, but back of those eight is another group which includes some of the best names in women's golf. Unless they come up with consistent sub-par golf from here on, they're off center stage.

Just behind the Babe and Miss Kieley was Marjorie Lindsay. The rangy Decatur, Ill., amateur who shot the most consistent golf of the first round, 37-37-74.

OAKMONT WINS

Pittsburgh, March 18—(P)—Oakmont high school captured the WPIAL Class B cage championship with a 42-32 win over Cumberland Township (Carmichael's) last night in Pitt Stadium. It was the first time the Oaks had won the title.

In FIAA District 10 class B play, Rocky Grove downed Cambridge Springs 62-39.

ENTER SECOND ROUND

Warren State Hospital basketballers will play the Oil City Fleckensteins tonight at 8:15 o'clock in the Titusville YMCA floor in a second-round game of a Gold Medal Independent tournament. The State Hospital five dumped the Oil City Eagles in the opening round of the tourney.

Ted Shattuck, ace Warren guard who won the District 10, Section 2 scoring race this year, also copped individual scoring honors for the Dragon Varsity in its 27-game campaign of league and non-league contests.

Shattuck participated in all 27 games and racked up 318 points in 125 field goals and 68 out of 140 free throws. Warren's other star courtman, Gail Nelson, ranked second high with 116 baskets and 51 out of 93 penalty tosses.

Best foul shooting performance among the five starters was turned in by Dick Christensen, lanky pivot, who made good 37 out of 56 tries for a .660 percentage.

Area Boys Enrolling For Baseball Loops

Boys between the ages of 9 and 15 who want to participate in organized baseball in the Warren area this summer were reminded today to send in their registration blanks for membership in the Warren Chapter of the Hot Stove League.

The Hot Stoves plan to sponsor both a midget league for boys 9 to 12 and an intermediate league for boys 12 to 15 this summer. Indications are that at least one team, and probably more, will be organized for each loop in each of the nine wards in Warren borough, plus teams from Starbrick, Pleasant Township, and the North Warren-Venturetown area.

The league also plans a big baseball rally for the Warren Armory on Tuesday, March 29. Admission will be by membership cards, which will be distributed to the boys by Ward leaders after the registration blanks are filed.

All interested boys are asked to fill in the registration blank appearing on the Sports Page of today's Times-Mirror, and mail it immediately to Bob Moorhead, Sports Desk, Times-Mirror, Warren, Pa.

Few Changes In Standings At The ABC

Atlantic City, N. J., March 18—(P)—With less than a month to go, the American Bowling Congress is finding changes fewer and farther between in its tournament standings.

Another day passed yesterday without a single upheaval in the top ten of any division.

And, with many of the topflight bowlers having already rolled, the leaders' positions are becoming stronger.

The present leaders are: Five-man event—Jimmy Smith's team of South Bend, Ind., with a 3,027 score.

Doubles—Charles Carnegie and Ed Montgomery, Philadelphia, with 1,306.

Singles—Howard Eekert of Grand Rapids, Mich., with 709.

All events—Johnny Small of Chicago with 1941.

Individual Duel In NIBA Cage Tourney

New York, March 18—(P)—The championship in the National Invitation Basketball Tournament probably will swing Saturday night on the individual duel between Chicago Loyola's Jack Kerns and San Francisco's Don Lofgran.

The Loyolas and the Dandy Dons from the Pacific coast, dark horses of the blackest hue, rolled into the title round last night at Madison Square Garden on the superb play of these two athletes.

Loyola, the "rain check" team that got in on a second-choice bid, subdued Bradley University's fire engine kids, 55-50. San Francisco turned back the favored beanstalks from Bowling Green (Ohio), 49-39.

To the sellout crowd of 18,301 which watched these semifinals, it was evident there have been few teams so dependent on single key men as the victors.

Kerns is a well-muscled youngster of six-foot-six, whose 64 points leads the tournament's individual scorers.

Two Beaty Squads In Rifle Tourney

Two teams of five boys will represent Beaty Junior High School in a sectional NRA rifle shooting tournament which opens tomorrow at Wellsville, N. Y.

The local teams are comprised of the high-average shooters for the season among the Beaty club members.

The Beaty team will be accompanied to Wellsville by their director, E. Ross Carlson, and Carlton Kurz, both Beaty school faculty members.

Squad members include: Robert D. Alpaugh, Charles E. Chido, Ronald B. Hook, Carl H. Nelson, Richard M. Walchli, Thomas R. Teagle, David E. Gahrnt, Rodney R. McCullough, Richard A. Hansen and Richard E. Carlson.

CAMP BRIEFS

By The Associated Press

West Palm Beach, Fla., March 18—(P)—The Philadelphia Athletics will send Phil Marchildon, Alex Kellner and Carl Scheib against the Brooklyn Dodgers Saturday at Vero Beach. Lou Brisie, Joe Coleman and Charley Harris will work the Sunday game with the Dodgers here.

The A's are scheduled to play an exhibition with Memphis today.

Tampa, Fla., March 18—(P)—Manager Joe McCarthy of the Boston Red Sox makes no bones about what he thinks of several of the Philadelphia Phillies. He likes them. His Sox beat the Phils 4-1 yesterday. Still—Marse Joe said he likes Gran Hamner at shortstop, considers Eddie Waitkus a Grade A major league first baseman, would like to have outfielder Richie Ashburn and calls Robin Roberts a top flight hurler.

San Bernardino, Calif., March 18—(P)—The Pittsburgh Pirates are smacking the ball a little harder. Maybe there's a reason.

Manager Bill Meyer, unhappy over the way his charges were hitting, gave them a five-hour batting drill yesterday before the game with Oakland (PCL).

At the 11 a. m. Sunday service, he will speak on "The Healing Christ." The choir will sing "It Will Be Daybreak Soon" by Nokes, and the nursery and junior church will meet at the same hour. Other meetings include the 7:30 p. m. Friendship service, with familiar gospel tunes, special music and an evangelistic message by the pastor on "What Is That?" Activities for the week are the midweek service of prayer and Bible study at 7:30 p. m. Wednesday, adults gathering in the prayer meeting room and young people in the social rooms of the church; also the choir rehearsal at 8:35 p. m. Wednesday.

Pastor Allison will preach on "Be Ye Satisfied" at the 7:30 p. m. service. The Intermediate League will meet at 4:30 and the Senior League at 6:30. Pastor Rogers will speak on "Mt. Hermon" at the Wednesday evening Lenten service.

tied the extinguisher on the blaze, and completed the job with buckets of water. Moral: Rural residents better see some member of the nearest fire department about purchasing an extinguisher.

Gordon E. Hunter, Saegertown funeral director, has been named general chairman of a Saegertown Centennial celebration June 10 and 11. The Lions club, fire department and Woman's Improvement club are sponsoring the celebration. . . . Old timers among Elk lodge members who have heard Grand Exalted Rulers such as John K. Tener, George Thompson, John R. Coen and Charles Hart, agree that not any of them could outclass the present G. E. R., who delivered two of the greatest messages on American democracy ever heard in Warren, during his visit here yesterday. And the officers and committee in charge are to be commended for the success of the banquet program. From the invocation to the midnight farewells it proved an evening that will go down in the records as one of the most outstanding in Warren lodge history. . . . Next big event on the fraternal calendar—the 100th anniversary of the founding of the lodge in Warren, April 30th. . . . Dusty, isn't it?
